

Bush Hill Park • Enfield N9

Bermac Properties Plc acquired two existing houses to create this site in 2004/5.

The company successfully negotiated a redevelopment scheme with the local planning authority officers to demolish the existing houses and construct 18 one & two-bedroom apartments within a contemporary three-storey building. Unfortunately the Council members resolved to refuse the planning application but Bermac were again successful at appeal.

Situated a short distance from the A10, the site was also ideally located for the prestigious areas of Bush Hill Park, Winchmore Hill and Enfield with their wide variety of retail and leisure facilities.

Construction works commenced in late 2006 and were completed 12 months later. Bermac was successful in securing off-plan sales of all apartments.
